

DJ Skribble

LIVING THE DJ DREAM

Click to read

With his larger than life personality, career spanning more than two decades and familiar sound that blends hip-hop, house, and rock/electro music, DJ Skribble has certainly held his own in the music business. He selflessly shares his wisdom, helps the careers of countless musicians worldwide, and is continuously working with emerging artists to help them find their own niche in this hardcore industry. His collaborations with established artists include P Diddy, Tati Cruz, Missy Elliot and former Spice Girl Mel B have only added to his golden list of accomplishments. His enthusiasm and talent have made him a star on the screen as well, appearing in a collection of music videos, multiple TV series and movies. He has also worked extensively with the likes of the NFL, NBA, "Playboy", "Disney" and "Sony". Ranked as one of the world's top DJs, he has begun collaborating with filmmakers to produce scores for film. However, he's never far from his beloved craft.

Where did you get the idea to have a DJ class? How has that gone so far? It looks like so much fun!

Teaching the art of DJ'ing the right way is something I always wanted to do. I wanted to give kids something positive to do and succeed at. I'm hosting a workshop in September in Las Vegas at the convention center and the age ranges from young kids to adults.

You also have an amazing DJ Charity as an after school program in NY. Can you tell us about that? Where can people find this after school event?

The charity is in the concept stages and not fully operating yet. Will keep you updated.

We are loving the new Mel B collaboration! How did this dream team start?

The song is out and available on iTunes at number 5 on the billboard Charts. This all came about because I know Mel's husband and he asked if my brother and I could do a remix. A few others like Paul Oakenfold and Sidney Samson etc. did a remix as well. I'm very pleased that ours did really well.

When you started as a DJ in the 80's did you think your career was going to take you to this level? You are world-renowned for your mixing and collaborations.

Never in a million years. Living the dream day in and day out is a blessing.

What would be one interesting fact that your fans do not know about you?

I love Doo-Wop music. I'm definitely into decorating with the family for the holidays - like Clark Griswold from Christmas Vacation. I own a custom turntable company called Pimpmyturntables.com

How does romantic life fit in with a DJ's lifestyle?

I have been married 11 wonderful years with 3 wonderful kids.

You have seen and done many things while DJ'ing, what would be your dream event to DJ if you could?

Headlining Madison Square Garden. I have just recently played there as one of the acts but I'd LOVE to headline!

What is next for DJ Skribble, what events do you have coming up?

Scottsdale, Arizona, Las Vegas, Keystone, Arizona and San Diego.

Visit DJskribble.com for full schedule.
