RICHIE SANTANA

I got my start... in 1995 when I produced a bootleg of *Sweet Dreams & Conversation* by lil Louis which was played by every major DJ at the time in NYC.

If you see me in the club... say hi... I am a very approachable person, but I am terrible with names.

The best party... Sessions party at Womb Tokyo...

Inspiration is... the birth of my son Julian. I have him to thank for putting a fire under my ass to start making music again.

My last thought before falling asleep... Thank God I am blessed to be doing this for over 20yrs...

The dream is... to continue to play music that I love, and travel the world...

What's next... More music and definitely more collaborations....

I want to be remembered for... being a humble guy who loves to make music and make people dance...
