Freshcobar, a staple in the dance music scene, has teamed up with emerging San Diego-based vocalist, **Golden Girl**, to release a new cover of "Missing" by **Everything But The Girl**. This marks the third cut by Freshcobar and promises to be a fresh take on a beloved 90s hit.

Golden Girl was immediately drawn to the new version after hearing it in the studio and asked if she could cover it. This collaboration represents the first time the two have worked together, and Golden Girl's touch brings a modern feel to the tune, enhancing the already housey groove that Freshcobar is known for.

"Remembering a time when we were missing someone as much as we miss the rain is how we are feeling in this 90s cover from Everything But The Girl. Bringing back an emotional moment in a heartfelt dance setting we don't want to forget." — Golden Girl

As a matter of fact, the cover has received critical acclaim on dance floors, with Freshcobar and other local DJs including it in their sets. Not to mention, it's gaining traction on various music charts.

Certainly, the track is sure to be a hit with nostalgic listeners, and it's just one of many jams planned by Freshcobar on his own imprint, NOS Recordings.

"Missing" by Freshcobar featuring Golden Girl is available on all major streaming platforms. Stay tuned for more!
