Freshcobar is back on our third release this time along with vocalist Golden Girl from San Diego, California. Freshcobar being a staple in the dance music scene and Golden Girl an emerging vocalist from the city teamed up to bring a 90's classic back to life.

While in the studio Golden Girl immediately wanted to cover the tune as soon as she heard it. While Freshcobar already had the Tech House finished groover, Golden Girl brings an added touch that gives the song a more modern feel.

"Missing" is out 4/28!
