Keepik's fascinating production released in collaboration with Ron Reeser is finally out and it sounds brilliant! And believe me, you will be conquered by "Louder Than a Gun", because this fresh progressive house tune creates a happy and positive ambient with its special effects. It's also featuring Joni's soft vocal, which is mixed in an outstanding way with some uplifting vibes, beautiful piano riffs and melodic leads! Not to mention its progressive energetic drop, which makes this track the perfect party starter for any memorable show! This one of a kind production is worth listening! You can convince yourself by listening it below:
