**Jun 02 2022**

### **First of all, how are you and how has your 2022 been going so far?**

It's been good, still on the road touring and promoting my new album MORPH.

### **After a long closure, the world is finally opening up again. What have you missed most about DJing?**

The thing I've missed most about DJing is feeding off the energy of the people on the dancefloor. There is nothing like human interaction, especially in social settings like a dance or music event.

### **How would you describe your sound?**

My sound crosses many genres, but it always has my signature feel of percussions, basslines, and tribal grooves.

### **What releases do you have lined up?**

I've decided to pull back on releasing a bunch of singles to put 100% focus on my debut album MORPH to give it some momentum. I'm happy to say my album entered the Beatport top 100 charts in 5 different genres. Not many dance artists can say that about their album. Just goes to show you the diversity that I can manipulate and work with. Later this year, I will have music and tracks coming out on Circus Recordings, my own label Younan Music and a few others that I can't go into details just yet.

### **Who are your biggest musical inspirations (DJ or production)?**

DJ wise, Danny Tenglia & Carl Cox. Production wise, Nicola Cruz.

### **What are you planning on bringing to the table for your set this Saturday night at Morning Mass?**

I'm planning to bring some heavy hitting tracks and those dark sexy grooves back. It's been a minute since I've played in Toronto (one of my favorite cities) so I'm super excited to drop beats for my TO peeps!

### **What are your top 5 track selections that are guaranteed to go off?**

Saeed Younan - Who You  
Saeed Younan - The Shuffle Is Real (Elio Riso, Hernan Paredes Remix)  
Saeed Younan, Sankuh - Church Of Bass (Hector Couto Remix)  
Saeed Younan - All The Haters Stay Clear  
Joeski - Head Bounce (Saeed Younan Remix)

### **What's something no one knows about you?**

I love gardening and growing my own fruits and veggies.

# What will you do after answering these questions?

Get back in the studio to finish a bunch of new edits to play out.
